Rhythm pervades our universe; both living
and nonliving. The galaxy rotates
slowly and regularly on its axis. Years, seasons,
lunar months, days, all recur
rhythmically.

Life itself is a
rhythmic cycle of birth, growth, maturity, and
death, unending and unchanging for all.
Man's love of and proclivity to
rhythm are attested to by his search and
instinctive need for balance and symmetry in life.
Music, painting, sculpture, poetry, all the
arts, evidence this need.

A school, being people, has
rhythm. It can, depending upon its members, be
energetic or lethargic; strict or lax;
good or evil; yet, since all life is
rhythmic, all schools have
rhythm:

There are the autumnal birth, the vernal
death of a school.

There are the mid-term, the final
examinations.

There are the report cards six times a
year.

There are the club meetings, the athletic
games, the tests.

There are the classrooms' inhaling and
exhaling of students, the noonday meal,
the studying and the homework, the
athletic practices.

The many separate
rhythms of school harmonize into a regular,
recurring cycle, differing for each student, yet
rhythmic for all.

Baseball, Softball Teams Score

Both the girls' softball and the baseball teams had strong offenses. The girls' basic problem was a weak defense; whereas the boys had an effective one, with three shut-outs to their credit in 1966.

With only three seniors on the small squad, lack of depth handicapped the girls, but the experience

gained by underclassmen is expected to produce a strong team next year.

Although a number of excellent players graduated, remaining talent will undoubtedly give the baseball team their third winning season in a row.

FIRST ROW: Bonnie Hamilton (Co-captain), Florence Fitchett, Nan Tankard, Pam Stewart. **SECOND ROW:** Letchia Webb, Charlotte Adkins, Betsy Whittington, Teresa Pruitt,

Debbie Arnold. **THIRD ROW:** Cathy Doughty (Co-captain), Suzanne Willis, Suellen Prince, Charlene Travis, Ruth Ames, Ann Charnock. **STANDING:** Coach J. R. Outten.

McCready, John Lansdale, Ira Higbee, Danny White, Wade Fitzgerald, Elton Gladden, Billy Mason, Dwight Matthews, Mike Hawker, Buddy West, Butch Nottingham, Head Coach Kenneth Parker.

Three Jackets To State Meet

The 1966 N.H.S. Track team began the season with three straight victories and closed out the year with a 6 won and 3 lost record and with respectable showings in the large meets: second in the Eastern Shore Meet, fifth in the District I Group 2 Meet. The J.V. team was third in the Eastern Shore J.V. Meet.

Three athletes at District qualified for the state meet at Charlottesville: Guy Dorey and Snooky Downing in the high hurdles and Jim Prince in the high jump.

With many outstanding underclassmen returning, the prospects are excellent for the 1967 season.

Tommy Palmer, Fred Richardson, Mickey Outten, Tommy Fox,

Wayne Bradford, Raymond Rehl, Lew Willis, Donald Rehl.

Coach Parker checks a runner's time at a track practice last Spring.

A new sport, Cross-country, coached by Mr. Newton, began this year at Northampton. Led by Dwight Matthews, a miler during track season, the nine-man team made a good showing for one so new.

In the Groups 1B and 2 meet, the team placed seventeenth; in the Williamsburg Invitational Meet, nineteenth. In its several meets at Wicomico, its best placing was that of second in a triple meet.

The Varsity and J. V. Cheerleaders have increased their activities this year. Girls Work For Sports

BOTTOM: Kathyanne Parker and Ketsy Gibb help construct Homecoming float.

SIDE: Cheerleaders Captain Ellen Wood and Martha Fontaine decorate the goal posts before one of the home games.

After winning only one of their first four games, and that one by forfeiture, the Yellow Jackets rallied to win their last six games, ending the season with a record of 7 games won and 3 lost.

Northampton's strength was its running attack and its defense. The team netted, rushing, 2,177 yards, almost twice as much as their opponents gained on the ground. The injury of Jim Prince, the regular quarterback, in the second game of the season, eliminated him for the season and threw the passing to Bub Shreaves, the fullback.

Bub Shreaves, the team's most valuable player in 1966, was All-District I Group 2 fullback and top scorer in the District with 135 points.

Besides Shreaves, other Jackets made the All-District team: Bill Mason, center, and Wescott Terry, tackle, second team. Halfback H. M. Arnold and end John Lansdale received honorable mention.

With ten lettermen returning in 1967, we expect an equally good season next year.

Bub Shreaves High-Scorer

H. M. Arnold slips around and against Chincoteague.

Slow Start Cripples Team

For the second year in a row, the Northampton Yellow Jackets tied for, then lost fourth place and a chance in the District I Group 2 tournament, losing to John Yeates in a heart-breaking 51 to 55 play-off game.

In regular season play, the Jackets started the season slowly, winning only 2 of their first 8 games. These early losses caused their poor season's record of 8 games won and 9 lost. In conference play, they won 3 and lost 7 games.

The return of Co-captain Bill Lewis, who had missed three games, sparked the improvement in the latter part of the season in which the team won 6 games and lost 3.

The high scorer on the team was Wescott Terry with 244 points and an average of 13.5 points per game to his credit. Tommy Merritt, who scored 233 points and averaged 12.9 per game, closely followed him.

Academics

The rhythms of learning . . .

Rosa Lee Bell and Donna Savage concentrate on Math II.

Wonders Of Math And Science

Glenda Thomas and Jane Wyatt study electricity in General Science.

Clyde Small observes John Lansdale's methods of measuring.

The physics class made a fountain using air pressure.

Tommy Webb and Kermit Vandergrift examine microorganisms.

Paul Rogers gains insight through microscope.

Ginny Dix and Jane Shackelford discuss the bisecting of an angle in Geometry class.

H. N. Dunton prepares to give a demonstration of Algebra.

Kathyanne Parker and Ketsy Gibb take time out from cheerleading to study Trigonometry.

Elton Gladden, Dwight Matthews, Gene Colonna, Carla Riggan and Barbara Cosby practice choral reading.

Communication Is The Essence of Understanding

Each student at Northampton takes five years of English courses, studying, besides prosaic grammar, literature, both English and that of other countries in translation. Students delve into the philosophy, beliefs, and purposes of authors as shown in their works. Textbooks are supplemented by required reading, book reviews, term papers, and creative writing.

Clyde Small relates his story after studying *The Canterbury Tales*.

Jackie Thomas illustrates how to diagram a sentence.

"The French don't care what they do, as long as they pronounce it properly." Advanced French students, Jo Gregory, Janey Nottingham, Hannah Henderson, Bess Cowling, and Brigitte Hurtt strive for correct pronunciation.

The French II class listens to tape recorder to improve pronunciation.

Two foreign languages are offered at Northampton: Latin and French. Both courses, besides grammar and vocabulary, include a summary of the particular nation's history, literature, and government; the Latin II class studies the writings of Julius Caesar.

Henry Floyd, Billy Magette, Candy Scott, Kipper Nottingham, Joan Doughty, Russell Gladden and Andrew Stitt play Latin Bingo.

One, two, three and we are ready for another five-minute writing. Gwen Bundick, Jim Payne and Richard Kellam check typewriters for adjustments.

Kermit Vandergrift, Clyde Bradford, Constance Wilkins, Joyace Church, Donna Savage, and Raymond Rehl prepare a report on consumption and production for General Business.

A number of courses at Northampton offer instruction in the basic academic skills of business: General Business is an introduction into business procedures and practices. Typing I and II teach one of the most useful mechanical skills of business. Bookkeeping is the first of a long series of courses in accounting that continue into college. Besides the skills outlined, students also learn business terminology and the legal aspects of business.

Vocational Courses

The Distributive Education courses train students in merchandising through classroom instruction, individual projects, and on-the-job training at the establishments of local businessmen.

Mrs. Kellam instructs Mary Sue Hand and Christine Moore in the proper writing of the "ie" symbol in shorthand.

"Hello! Hello! Would you like to have some of my tangerine?" Tommy Fox, Sue Pruitt and Ellen Farlow practice proper telephone techniques.

Offer Future Employment for Students

"And on behalf of" the D. E. class, Rickie Scott delivers a lecture.

Francine Mathewson assists Margaret Ulrich in preparing daily bookkeeping assignment.

Creative Skills Offered In Many

Anne Nottingham and Andy Mason paint a winter mural.

Al Shreaves, as student director, takes his turn leading the band

Quiet overcomes locker room while boys have physical education in the gym.

Home economics offers a variety of skills. Kathy Charnock, Betty Jane Rogers, and Brenda Moore.

Areas of Study

In drafting class, Jimmy Henderson copies a layout of a house.

Darryl Powell, Tommy Scott, and Dennis Bradford prepare to work with electrical equipment.

Wayne Hall uses the drill press in shop.

Mrs. Burns and the public health assistant check instruments for dental survey.

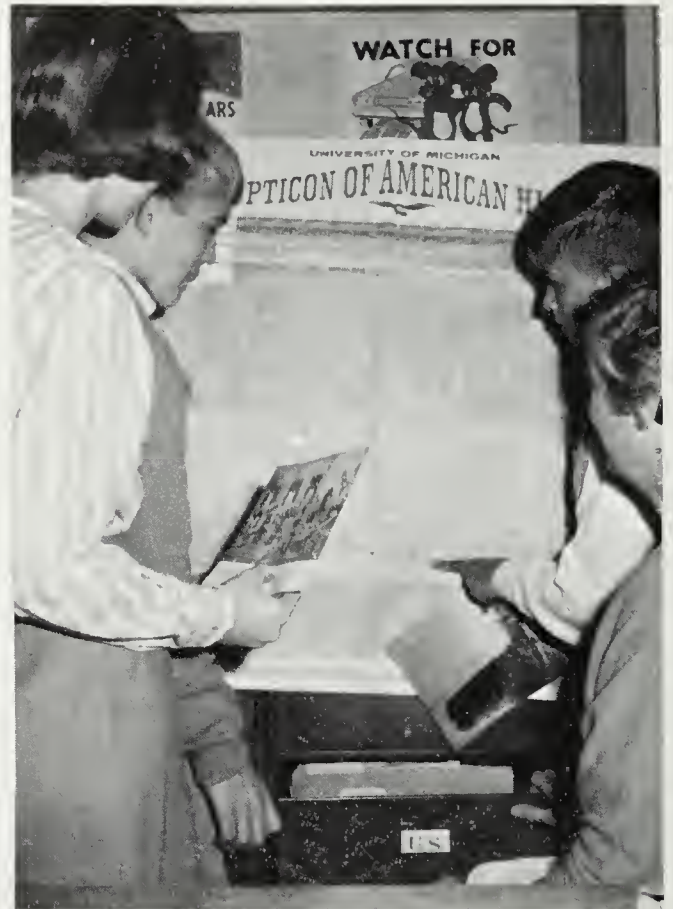

From Genesis to Johnson

Sing along with Jake?

World History and American Government are two closely related courses; World History presents to the student man from "Adam to the atom," emphasizing the development of Western thought in classical and European cultures. Besides studying current events for their effect on international politics, Government covers the design and workings of the American political state, and uses this study to demonstrate the need for cooperation among men and nations.

Mr. Webb assists Frances Marsh in preparing a special project for United States history.

Miss Scott explains a chart on American History to students.

Shirley Stine delivers scholarly lecture on Marco Polo.
